About me: HI, I'm Denis. I like to code and I have a knack for design. I develop responsive, high-performance websites using HTML5, CSS, and JavaScript/jQuery, Knockout and PSD, Figma & Sketch to CMS (WordPress, Joomla, PrestaShop, MODX, Shopify and others) or just HTML landing page website. I have built many successful websites. I love structure and order and I also stand for quality. I like interesting projects and new provocations. I'm always trying to study new technologies and know new technology trends. I like teamwork, because the problem is resolved faster in a team than if you solve it yourself. As the saying goes: 'two heads are better than one' 🧠. My hobbies are microelectronics and carpentry. I like Arduino, because it is possible to do everything with it. And I like to combine microelectronics and carpentry in interesting projects. Please go to my personal website and see my portfolio and hobbies projects.

## WORK EXPERIENCE

01/2018 – CURRENT – Chisinau Office, Moldova

### FULL TIME - FRONTEND DEVELOPER – AdsPro

I develop responsive, high-performance websites from **Figma** projects to cod, using **HTML5**, **CSS**, and **JavaScript/jQuery**. And in some projects and **Vue.js**.

04/2014 – 05/2018 – Chisinau, Moldova

### FULL TIME - FRONTEND DEVELOPER – Themefuse

We create different thematic themes for WordPress and sale on **Themeforest**. Still here we created a builder for WP **The Core**, and I wrote for this builder all HTML, CSS, JS code. Now **ThemeFuse** made a new builder [brizy.io](https://brizy.io).

This builder is made on **React.js** and for this I made some components/

options (tooltips, shadow, padding and more). I also found out about this project I met with **React.js**.
